

LOKHANDWALA ENGINEERING

Specialized in Cable Tray, Ducting, Grating, Storage Tanks & All Kinds of Steel Fabrications

Respected Sir/Madam

Lokhandwala Engineering - Your Reliable Source for Fabricated Steel Products

At Lokhandwala Engineering we take immense pride in being your one-stop destination for high-quality engineering products. With a strong focus on precision, durability, and innovation, we supply and fabricate an extensive range of superior-grade solutions to meet your diverse project needs.

Our Comprehensive Product Portfolio Includes:

1. Cable Trays and Accessories:

- Supply of cable trays in various sizes and types, including ladder trays, perforated trays, and wire mesh trays.
- Provide all necessary accessories such as brackets, clamps, and covers for secure cable management.

2. MS and SS Gratings:

- Supply of Mild Steel (MS) and Stainless Steel (SS) gratings for various applications, including flooring, walkways, and drainage systems.
- Ensure proper sizing and fixing of gratings to meet safety and load-bearing requirements.

3. Ducting:

- Supply and installation of ducting systems for ventilation, air conditioning, or exhaust purposes.
- Ensuring precise design and fitting of ducts to optimize air circulation and maintain indoor air quality.

4. Industrial Cladding for Pipes and Tanks

- Fabrication of cladding for pipes and tanks through the application of protective and insulating materials to these essential components in industrial facilities.

5. Customized Pipes and Clamps:

- Fabrication and supply of custom-made pipes and clamps to meet specific project needs.
- Ensure precision in measurements and weld joints for a secure fit.

Head Office : # 1-2, Ibrahim Centre, LR-5, Lawrance Quarter, Ireland Road, (Sarya Gall) Off. Nishter Road, Karachi-Pakistan.

"Our engineering gives name to metal"

Specialized in Cable Tray, Ducting, Grating, Storage Tanks & All Kinds of Steel Fabrications

6. Unequal Angles, Channels, and Z-Purlins:

- Supply of unequal angles, channels, and Z-purlins for structural support and framing.
- Comply with structural engineering specifications and standards for safe construction.

7. Lockers, Cabinets, Shelves, and Tables:

- Fabrication and installation of lockers, cabinets, shelves, and tables tailored to client requirements.
- Ensure sturdy construction and suitable finishes for durability and aesthetics.

8. Trolleys:

- Supply of trolleys designed for various purposes, including material handling and storage.
- Ensure ease of mobility and durability for long-term use.

9. Metal Fencing, Structures, and Sheds:

- Fabrication and installation of metal fencing for security and boundary delineation.
- Construction of metal structures and sheds for shelter and storage purposes.

10. Storage Tanks and Trays:

- Supply of storage tanks and trays for liquids and materials.
- Ensure proper sealing, reinforcement, and corrosion protection as per project requirements.

11. Perforated Sheet:

- Supply of perforated sheets for various applications, including acoustic panels, decorative facades, and screening.
- Precise cutting and installation to achieve desired perforation patterns and appearances.

12. Fire Safety Doors:

- Fabrication and installation of fire safety doors compliant with fire safety regulations.

13. Powder Coating and Hot-Dip Galvanizing:

- Provide powder coating and hot-dip galvanizing services for corrosion protection and aesthetic enhancement of metal products. Ensure adherence to industry standards for coating thickness and quality.
