"Our engineering gives name to metal"

LOKHANDWALA

CABLE TRAY & ACCESSORIES

Our cable management solutions offer all kinds of cable trays such as *solid, perforated, ladder and wire mesh* in *MS, GI & SS* material both plain and powder-coated along with all the accessories including *brackets, clamps, coupler, bends, tees, risers, etc.* We can fabricate any size from *38mm to 900mm*.

GRATING

Enhance your workplace safety with our durable and reliable grating solutions, engineered for heavy-duty applications, optimal load-bearing capacities & easy handling. We make gratings in *MS and SS* material with hot dip galvanization service available for MS gratings.

LOKHANDWALA

LOCKERS, SHELVES, TABLES AND CABINETS

Our metal furniture solutions in MS and SS for staff, workers, gym, warehouse, and school offer products of any size, configuration, locking mechanism, based on load capacity to meet specific storage needs and space requirements of clients.

RACKS

Our racking solutions are designed to provide efficient and organized storage solutions for various items, products, and materials in both industrial and commercial settings. We can make pallet, shelving, cantilever and mobile racks.

STRUCTURAL FABRICATION

We also offer structural fabrication service for metal sheds, fencing, doors, platforms and stairs, razor wire, brackets for cable trays, trolleys and etc.

We are committed to providing the perfect metal structure to meet your commercial or industrial need.

FABRICATED PIPES, PERFORATED SHEET & CUSTOMIZED CLAMPS

Get tailor-made pipes, perforated sheets and clamps that perfectly match your project requirements, crafted with precision and quality.

CUSTOMIZED ANGLES, CHANNELS, STRUT CHANNELS, Z-PURLINS,

The benefits of using customized channels, angles, and Z-purlins include precise fit, optimized structural performance, and reduced on-site fabrication. Customization allows builders and contractors to obtain components that precisely meet the project's needs.

LOKHANDWALA

Industrial Cladding for Pipes and Boilers

We provide pipe and boilers cladding services, catering to industries where thermal efficiency, corrosion protection, and operational reliability are paramount.

We can also facilitate with:

- A) POWDER COATING
- B) HOT DIP GALVANIZING
- C) ELECTRO GALVANIZING
- D) CASTING IN MS, SS, BRASS, COPPER, ETC
- E) PERFORATION
- F) LASER CUTTING
- G) ARGON WELDING
